

**Registration form for COMPUTE course
“Scientific Computing with Python and Fortran”, 2020**

The course “Scientific Computing with Python and Fortran” will be given in the autumn term 2020 (September 15 – November 27). Basic programming knowledge is required. Participation in the course requires an operational laptop. More details about the course can be found at the COMPUTE website <http://cbbp.thep.lu.se/compute/Courses.php>.

Spaces in the course are limited, so please register as soon as possible to increase your chances of being admitted. You must be enrolled in the COMPUTE research school to register for the course.

This course will take place entirely online.
