

SBW2011 SBW2011 SBW

September 29-30, 2011, Lund University

SBW2011
scientific
focus:
Systems
Biology and
Comparative
Genomics.

Keynote speakers

Richard Bonneau, *New York University*

Peter Swain, *University of Edinburgh*

Bruce Fouke, *University of Illinois*

11th Swedish Bioinformatics Workshop Lund University

Welcome to the 11th Swedish Bioinformatics Workshop which will be held in Lund on September 29-30, 2011. The workshop is free of charge for PhD students and postdocs affiliated with a Swedish university.

Registration and submission of abstracts are now open. Please visit the workshop homepage:

<http://cbbp.thep.lu.se/sbw2011>

The purpose of this annual workshop is to provide an opportunity for young, Sweden-based scientists in all the diverse disciplines of Bioinformatics to meet and exchange ideas during two informal days of science, progress, and fun.

The scientific program for the 2011 workshop will consist of keynote talks by 3 invited speakers, around 10 PhD student presentations, and a poster session. This year's keynote presentations will be focused on Systems Biology and Comparative Genomics.

A detailed program will be available at the homepage.

The final date for registration and submission of abstract is

August 22, 2011.

We hope to see you at the workshop,

The SBW2011 organizing committee.
